# Wood-House. 1676.

# A Prognostication, for the year of our Lord God, 1676.

Being the *Bissextile*, or Leap-Year, and from the Worlds Creation 5639.

Wherein is contained a brief description of the four Quarters of the Year; excellent Notes of Husbandry and Gardening, for every month in the Year.

With the Names of all the Principal Fayrs, And a Description of the High-Ways in *England* and *Wales*.

BY

JOHN WOOD-HOUSE,
*Philomath.*

LONDON,
Printed by *J. Macock* for the Company of Stationers, 1676.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio; and in these months, September, November, February.

Set Vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Melons in February, March, or June, in a hot and a fair day.

Excellent Notes of Husbandry and Gardening, for every Month in the Year.

IN January cut down Timber (and it shall not think not be eaten with worms) in the last quarter of the Moon set or sowe Kernels, and Berries of Bay-trees, Privet, and Box. Set Quick-sets, Role-trees, Peaches, Filberds and Plum-trees; and remove trees if the frost be not too hard, prune and lop them before full Moon: sowe or set Beans and Peale, and dung land in the last quarter: geld Cattel to rear, fallow land for Wheat and Rye: Trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesom diet be your Philitian, moderate exercise and labour your sawce to cause appetite.

February.

NOw sowe all sorts of Peale and Beans, and other Pulse, sowe Mustard-seed, cast up ditches, set and plant Vines, Hops, Gooseberries, and any fruit that growes upon bushes, prune and trim all sorts of fruit-trees from mols, canker, and all superfluous branches. Graft in the latter end of the month, sowe Onyons in cold stiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but East or South) graft Pear, Warden, or Apple-trees make an end of sowing all manner of Pulse, and begin to sowe Oats, Barley, Parsenips, Onyons, Carrets

Carrets, Cucumbers, Melons, and all kind of Pot-herbs, slip Artichokes and Sage, geld Lambs, let blood according to strength and necessity, for Rain and weather also being (but take advice of the learned Physitian) low what diseases cannot be cured in the Spring time by phisick, will hardly be cured all the year after.

April.

SOw Barley, Hemp, and Flax, plant Roses, let and lowe all kinde of Garden herbs, open Bees, and let Bees labour for their living, let Farmers now provide them for Work and all good Housewives look to their Dairies, bleed and purge with advice; those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

SOw Barly on all light lands and tarfing grounds, and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, stir land for Wheat and Rye, leave lopping of Trees, teach Hops to climb, but cut off the superfluous branches, Bees carry, walk the fields, chuse all the running streams, Sage and sweet Butter is now in excellent breakfast, Sage and Carduus water, as also Scurvy-grass Ale, and Elder-wood Beer, all wholsom drinks to be drunk fasting.

June.

SHear Sheep, bring home fuel, weed Corn and Gardens, let Rosemary, Carnations, and Gilly-flowers, lowe Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make hay, carry Sand, Lime, Marl, and Manure, of what kind soever befitting your land, cut neither hedge nor Tree in this and the two next months, beware of great thirst, ale thin and light Beer, moderate exercise, and shelter thoughts.

July.

APply making and getting in of hay, pull Hemp that is ripe, gather Garden Beans, get Rue, and Celandine, and Gaul to strew on your floors, to destroy Worms and Fleas, hence your Copies, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the Winter live poor, and in want.

August.

FOllow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

IN the beginning of this month, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground, till Bees make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady-days, put Wine to Wast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

SOw Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter fruit, the weather dry, in the afternoon, and in the wane of

the

the Moon. Cut Rose-trees, if you desire to have store of Roses, do this once in two years, refuse not any needful physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke the Vault, kill Hogs, trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholsome meat and drink, with good exercise to preserve health.

December.

IN this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung, look well to your cattel, water and keep moist your meadows, let houses blood, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.

Neque is qui plantat, neque is qui rigat,
Sed Deus qui dat Incrementum.
